Maun Botswana

Overnight at Camp Xakanaka in Okavango

Pre Arrival; Guest will be met by our representative at Maun International Airport. You will be given opportunity to go move around the shops, to prepare yourself to Moremi Game Reserve overnight Safari trip in the wild, dinner will be served at the campsite, shower and night to be spend on canvans tent.

Day 1 The Okavango River comes down from Angola. The flatness of the land in Botswana causes it to fan out into an inland delta covering an area of some 16,000 square kilometers. Your trip into Okavango Delta should be regarded as much a cultural experience, as a wildlife one. The majority of the polers who will guide you and the people you will meet in this area are a mixture of baNoka and baYei. These people still live on corn, sorghum, melons; herding cattle and goats; fishing and hunting and gathering to supplement their livestock and agriculture. In the Okavango Delta, most camps offer both water and land activities but some are pure water and others are pure land camps. The water camps focus on 'mokoro' (dugout canoe) trips in the waterways where there is not such an abundance of animals although buffalo, elephant, lechwe, the elusive Sitatunga and other animals do occur on the islands. Birdlife however is in great abundance and you stand a good chance to sight Pel's Fishing Owl, Slaty Egrets, Rufous-Bellied Heron, Wattled Cranes, Swamp Boubous, numerous eagles and vultures to keep any bird lover satisfied. Therefore guest will have time to participate in game viewing in the evening and in the morning they will participate in Mokoro trip for an hour and then we will return from Xakanaka to Maun to participate in Scenic flights
