

DRAFT: Introduction to Computational Materials Science

Facilitators:

Prof. Ismaila Dabo (Penn State Univ, USA)

Prof. Nelson Dzade (Penn State Univ, USA)

Dr. O. Akin-Ojo (Univ. Ibadan, Nigeria)

Tentative Topics:

1. Electronic Structure: **Density Functional Theory (DFT)**, SCF, Band Structure, Density of States, Structure Optimization, IR Spectra, Normal Modes

2. Introduction to Machine Learning for Materials Sciences: Introduction to Python, Machine Learning Algorithms (Supervised Learning), Mining Databases, Featurization
